Front-end Developer

SUMMARY

Front-end developer with four (4+) years of experience building scalable, responsive, and high-performance web applications. I specialize in translating complex UI/UX designs into clean, maintainable code using modern tools like React, Next.js, TypeScript and Tailwind CSS. I thrive in collaborative Agile environments, partnering with cross-functional teams to deliver high-impact products that align with stakeholder and business goals.

SKILLS

❖ JavaScript	❖ React	❖ Redux	❖ CSS	❖ Tailwind
❖ TypeScript	❖ Next.js	❖ Zustand	❖ Axios	❖ GitHub

PROFESSIONAL EXPERIENCE

Styleit Africa

2025 – 2026

Remote

Front-end Developer

- Developed and maintained responsive frontend components for the admin panel, ensuring seamless user experience across different devices and screen sizes.
- Collaborated with backend developers to consume RESTful APIs, handling request/response cycles, error states and displaying validation results clearly to admin users.
- Optimized existing frontend codebase and implemented UI enhancements based on admin user feedback.
- Built reusable UI components for data tables, forms, and notification panels used throughout the admin dashboard.

Interswitch Group

2025

Okota Awo | Lagos, Nigeria

Beta Tester

- Executed Comprehensive API validation testing for NIN, BVN, and TIN endpoints using Postman, verifying accuracy and functionality across both test and live environments.
- Performed edge case and negative testing on NIN, BVN, and TIN endpoints using Postman, including invalid formats, alphanumeric substitutions, and incorrect payload structures to ensure robust error handling.
- Conducted manual end-to-end of the web interface to identify UI/UX inconsistencies and ensure seamless integration with backend API response.
- Documented and reported critical bugs and edge cases, collaborating with developers to troubleshoot issues and improve overall product reliability.

- Created and updated digital records, reports, and correspondence to keep management informed and organized, freeing up executive time to focus on business growth initiatives.

Acehelp Modiba Limited

2023 - 2024

Lagos, Nigeria

Front-end Developer

- Worked closely with product managers and UI/UX designers to translate design concepts into high-quality codes that adhere to best practices.
- Collaborated with backend developers to integrate frontend components with server-side logic and RESTful APIs.
- Optimized components for maximum performance across different devices, screen sizes, and browsers.
- Maintained and modified existing codebases to ensure code quality, reliability, and maintainability.

Enoverlab

2022 - 2024

Remote

Front-end Developer (Volunteer)

- Collaborated with the product management team to translate user needs and business goals into functional, high-quality frontend code.
- Translated the UI design of an educational water treatment app into a fully functional frontend, presenting clear and accessible information on purification methods, waterborne diseases, and water purification equipment.
- Built the user-interface of an eCommerce platform, ensuring a seamless and intuitive shopping experience for customers.
- Optimized application performance responsiveness, ensuring a smooth user experience across all devices, from mobile phones to desktops.
